

Researcher/Project Manager at Samuel Hall

Migration and Displacement Pillar

Samuel Hall is seeking an experienced and professional Researcher **with a proven academic record** to join its Migration and Displacement Pillar for a full-time position based in our Nairobi office. Researchers have the opportunity to apply their research skills by leading research projects in Africa, and globally across Samuel Hall's areas of operation in Asia, Africa and Europe. Researchers work on desk reviews, key informant interviews, and conduct extensive fieldwork with implementers and beneficiaries to collect data and analyse results. Researchers also contribute to the strategic development of the Migration Pillar by applying for grants and proposals, attending international conferences, and participating in the dissemination of our research. There is a strong potential for in-country and international travel.

Who we are: Objectives and ethos

Samuel Hall is an independent think tank specialised in field research and social impact. We provide practicable insights to challenging issues in the developing world by providing academic-standard research through primary data collection in areas where researchers do not commonly go. Samuel Hall works with governments, donors, multilateral organisations and INGOs, as well public and private sector entities. We have worked with more than sixty-five organisations worldwide since 2009 through our offices in Afghanistan, Kenya and Somalia covering Asia and Africa.

At the Migration and Displacement Pillar, we produce knowledge and data on population movements in and out of countries of origin, transit and destination. Using quantitative and qualitative, participatory research with migrants, refugees and internally displaced persons, we build evidence on their social environment, protection, livelihoods, contributions and aspirations. We use this evidence to deliver trainings and capacity building to actors shaping the lives of migrants, and to design programmes and policies that adhere to international frameworks. Our approach is inductive and contextually relevant. We are known for our expertise and seek researchers with expertise in:

- Migration
 - Migration and development
 - Irregular migration
 - Migration-employment nexus
 - Labour migration and mobility
 - Policy development
- Displacement
 - Internal Displacement
 - Forced migration
 - Smuggling and Trafficking
 - Return and reintegration, including post-return outcomes, voluntary and involuntary returns
 - Durable solutions

WORK ENVIRONMENT: We are a rapidly growing research organisation: you will be expected to growth with us and carve out your own spot in the team. We look for pro-active, creative individuals who can identify opportunities to make their mark, and identify solutions to problems. We believe in hiring people who can show their ability to be both strong leaders and reliable followers, who have skills that our team currently lacks and who join us to add value from the very start. We hire people who can expand our knowledge, and help us reach our social impact objective in their field of expertise. We work in a fast-paced, demanding and challenging environment: you will need thick skin, passion and dedication!

Vacancy Requirements

Applicants will need to possess and demonstrate the following qualifications and transferable skills:

- Advanced university degree with a minimum of four years of higher education; preferably with a current university affiliation as research affiliate or associate
